

8th NHG ANNUAL SCIENTIFIC CONGRESS 2009

Ear Nose & Throat (ENT)

presents

New Technologies in Otolaryngology:

A Review of Outcome and Their Roles in Clinical Practice

17 October 2009 | 0830 - 1200 hours | MR314, Level 3 Suntec Convention Centre

Synopsis

With the rapid advancement in medicine, new technologies have been introduced over the years. It is important to periodically review these technologies objectively to determine their role in clinical practice. In this session, the four technologies selected include Image-guided surgery, Cochlear Implant, Sinuplasty & Endoscopic Thyroidectomy. For each topic, the current data on efficacy, outcome, comparison with the historical technique or data will be made & their roles in current practice determined.

Symposium Topics

Session 1 | 0830 – 1000 hours

Advances In Cochlear And Middle Ear Implants
