

8th NHG ANNUAL SCIENTIFIC CONGRESS 2009

presents

Pathology & Laboratory Medicine

Soft Tissue Pathology

17 October 2009 | 0830 - 1200 hours | MR310, Level 3 Suntec Convention Centre

Synopsis

Soft tissue pathology is one of the most diagnostically challenging fields in the practice of histopathology. We have assembled a distinguished panel of speakers who will share with us some important and exciting issues in soft tissue pathology. Dr KL Chuah will discuss the clinico-pathologic aspects, management implications and latest developments on an increasingly recognized mesenchymal tumour - perivascular epithelioid cell tumour, affectionately known as "PEComa". Dr Cora Chau will touch on the diagnostic approach to spindle cell tumours encountered in the gastrointestinal tract. Updates on common lesions such as gastrointestinal stromal tumour (GISTs) will also be provided. Finally, using a case-based approach, Drs HY Lee and Clarence Teo will present a variety of interesting topics in soft tissue pathology from the archives of TTSH Pathology.

Symposium Topics

Session 1 | 0830 – 1000 hours

Update On PEComa

Dr CHUAH Khoon Leong, Senior Consultant, Pathology, Tan Tock Seng Hospital, Singapore

Spindle Cell Tumours Of The Gastrointestinal Tract

Dr Cora CHAU, Consultant, Pathology, Tan Tock Seng Hospital, Singapore

Session 2 | 1030 – 1200 hours

TTSH Pathology Archives : Interesting Soft Tissue Tumours

Dr LEE Hwei Yee, Consultant, Pathology, Tan Tock Seng Hospital, Singapore

Dr Clarence TEO, Consultant, Pathology, Tan Tock Seng Hospital, Singapore
