

# 8<sup>th</sup> NHG ANNUAL SCIENTIFIC CONGRESS 2009

presents

## Haematology – Oncology

### NK-T Cell Lymphoma - An Asian Phenotype

16 October 2009 | 1615 – 1745 hours | MR310, Level 3 Suntec Convention Centre

#### Synopsis

NK-T cell lymphoma is a subtype of Non-Hodgkin's lymphoma that is much more prevalent in the East compared to the West. This disease has a very poor prognosis with limited therapeutic avenues. The lack of progress stem from a lack of understanding of disease biology. Advances in genetics and molecular biology in recent years, have provide new opportunities to understand this disease. These progress may lead to better diagnosis and treatment of the disease.

#### Symposium Topics

##### Diagnostic Issues In NK-T Cell Lymphoma

Dr TAN Soo Yong, Senior Consultant, Pathology, Singapore General Hospital, Singapore

##### Unraveling Molecular Genetics Of NK-T Cell Lymphoma

A/Prof CHNG Wee Joo, Consultant, Haematology-Oncology, National University Hospital, Singapore

##### Therapeutic Frontiers In NK-T Cell Lymphoma

Dr Daryl TAN, Consultant, Haematology, Singapore General Hospital, Singapore
