

8th NHG ANNUAL SCIENTIFIC CONGRESS 2009

presents

Research Career Development Symposium

16 October 2009 | 1415 - 1630 hours | MR305, Level 3 Suntec Convention Centre

Synopsis

The NHG Research & Development Office (RDO) administers two major funding programmes to support clinicians who want to pursue a research career.

(1) NHG-NUS Clinician Leadership in Research (CLR)

The CLR programme is a joint collaboration between the National Healthcare Group and the National University of Singapore. The aim of this programme is to nurture clinician scientists and researchers. This programme combines a one-to-one mentorship, assessment and a follow-through training programme. Young investigators will have the choice to pursue one of the three available tracks while on this programme i.e. clinical research, translational research or health services research.

(2) Investigator-Clinician (IC) Track

The IC career track in NHG is for doctors who wish to pursue research as their primary career. Emplacement on the IC track is on an invitation basis only. NHG-RDO will identify / shortlist candidates from the cluster's research talent pool (doctors who have won NHG or national-level research grants or research scholarships) for consideration.

In this symposium, we will be awarding the new 2009 CLR candidates and graduating our 2007-2008 CLR awardees. The NHG will also be awarding the first cohort of Clinical Research Coordinators who successfully passed the CCRP (Certification in Clinical Research Professional) examination, an internationally recognised certification administered by the Society of Clinical Research Associates (SoCRA). A newly appointed IC track awardee is currently undergoing an overseas research stint at The Christie NHS Foundation Trust, Manchester, United Kingdom.

Symposium Topics

Motivating the Next Generation

A/Prof Manuel Salto-Tellez, NUS-NUHS Vice Dean Research (Clinical), Pathology, National University Hospital, Singapore

Biomedical strategy on developing Clinician Investigators

A/Prof Allen YEOH Eng Juh, Senior Consultant, Paediatrics, National University Hospital, Singapore

Developing the Clinical Research Coordinators

Ms Nancy TAN, Co-Chair of Research Staff Career Development Joint Committee, Director of Human Resource and Talent Development, Ministry of Health Holdings, Singapore
